PART 2 – GOODS REQUIREMENTS

SECTION V – TERMS OF REFERENCE (TOR) AND SCOPE OF GOODS REQUIRED

Introduction

Water Resources Authority (WRA) is a State Corporation established under Sec 11 of the Water Act 2016 and designated under Sec 6 of the Act as an agent of the National Government for the regulation of use and management of water resources in the country. WRA is mandated under Sec 12 of the Water Act 2016 to “receive water permit applications for water abstraction, water use and recharge and determine, issue, vary water permits; and enforce the conditions of those permits” Sec 42 of the Act mandates WRA to impose a condition on the water use permit requiring the holder to pay water use charges.

Regulation 77 and 87 of the Water Resources Regulations 2021 (WRR 2021) requires persons holding a water use permit or required to have a permit to install a smart meter at the point of intake in order to monitor abstraction.

WRA has developed the Water Meter Data Management System (WMDMS) to receive smart meter data transmitted from meters installed across the country. However, the installation of the smart meter is the responsibility of the abstractor as per the law.

In order to ensure that the smart meters installed by the abstractors are compatible with the WMDMS, WRA intends to prequalify smart meters suppliers and installers to supply and install smart meters to abstractors on a **“willing buyer – willing seller” basis**. WRA will not participate in the procurement or installation but will configure the meter to transmit data to the WMDMS.
