CLARIFICATION ADDENDUM 1

TENDER NO. KALRO/NAVCDP/NCB/002/2026-2027: SUPPLY & INSTALLTION OF 2 NO HIGH PERFORMANCE ENTERPRISE SERVERS TO KALRO HEADQUARTERS

No.	Details	Clarification
1.	GPUs: How many H200 NVL GPUs are required per server?	1 GPU per server
2.	FC Cables: four LC-LC cables are listed. But no FC HBA is specified, Are FC HBAs required, and if so what type and how many ports?	The LC-LC cables are for connection to the existing 10G SFP+ switches.
3.	Equivalents: will equivalent components from the offered OEM be accepted where the spec names another brand's model (e.g BOSS-NI, PERC, OCP 3.0 NIC)?	The requirement is for the server to have a resilient boot solution that easily segregates the operating system from the data storage plane
4.	Accessories: is the accessories list per server or for the whole contract?	The accessories list is for the whole contract.
5.	Past performance: what counts as a "similar assignment", and is there a minimum value?	Supply and installation of high performance enterprise servers that meet the minimum key technical requirements specified in the tender document.
