

REPUBLIC OF KENYA

MINISTRY OF LANDS, PUBLIC WORKS, HOUSING AND URBAN DEVELOPMENT STATE DEPARTMENT FOR HOUSING AND URBAN DEVELOPMENT

INTERNATIONAL COMPETITIVE BIDDING

TENDER RE-ADVERTISEMENT

MECHANICAL, ELECTRICAL AND PLUMBING TENDERS

The Government of Kenya, through the State Department for Housing and Urban Development, is implementing the Affordable Housing Programme (AHP) with an ambitious target of 200,000 housing units annually and a cumulative total of 1,000,000 units over the next five years. This transformative national priority not only seeks to provide dignified, affordable homes to Kenyan citizens but also to drive industrialization, create high-quality jobs, and achieve manufacturing independence in critical building components.

To support this scale, the State Department is procuring the following Mechanical, Electrical and Plumbing (MEP) equipment through a **single-category, national-level Framework Agreement (FA)** for a maximum duration of ten (10) years (extendable with mutual consent where performance is satisfactory). The FA will establish a ranked panel of pre-qualified suppliers (minimum 7, maximum 12 responsive tenderers) for the manufacture, assembly, delivery, installation, testing, commissioning, and subsequent 10-year post-Defects Liability Period maintenance for various sites spread throughout all regions of the Republic of Kenya.

No fixed regional packages, pre-determined geographical allocations, or guaranteed minimum quantities will be established at the tender stage. Instead, the Framework Agreement creates a flexible national panel from which the Procuring Entity shall issue multiple call-off contracts strictly as and when sites become ready and funding is approved. Each call-off shall be awarded sequentially according to actual operational needs using either;

- 1) direct call-off to the highest-ranked available panel member at the original tendered unit rates (the default and preferred method for speed and efficiency where specifications and delivery schedules remain substantially unchanged), or
- 2) mini-competition among all available and capable panel members (minimum three invited) whenever the call-off involves large quantities, special technical requirements, significant lead-time variations, or the highest-ranked supplier is unavailable or at capacity.

In all cases, pricing for every call-off shall be determined exclusively by applying the original tendered unit rates and prices contained in the Framework Agreement, thereby ensuring full transparency, value for money, equal treatment of panel members, and strict compliance with the Public Procurement and Asset Disposal Act, 2015 and its Regulations.

The Affordable Housing Programme creates a predictable, multi-year market, while the inclusion of a mandatory 10-year maintenance obligation and the requirement for local assembly or manufacturing within 24 months encourages substantial investment in Kenya's Special Economic Zones (SEZs) and Export Processing Zones (EPZs). This Framework Agreement therefore offers suppliers a unique opportunity to participate in one of East Africa's largest housing and industrialization initiatives, fostering employment, skills transfer, domestic supply-chain development, and long-term technological independence in critical MEP installations.

The Government of Kenya therefore through the Ministry of Lands, Public Works, Housing and Urban Development, State Department for Housing and Urban Development, invites tenders from interested eligible tenderers for the following:
