PROPOSED MANUFACTURE, ASSEMBLY, DELIVERY, INSTALLATION, TESTING, COMMISSIONING AND MAINTENANCE OF WATER PUMP SETS FOR THE AFFORDABLE HOUSING PROGRAMME UNDER A FRAMEWORK CONTRACTS ESTABLISHED PURSUANT TO THE SPECIALLY PERMITTED PROCUREMENT METHOD (SPPM)

1. PROJECT BRIEF

The Government of Kenya, through the State Department for Housing and Urban Development, is implementing the Affordable Housing Programme (AHP) with an ambitious target of 200,000 housing units annually and a cumulative total of 1,000,000 units over the next five years. This transformative national priority not only seeks to provide dignified, affordable homes to Kenyan citizens but also to drive industrialization, create high-quality jobs, and achieve manufacturing independence in critical building components.

To support the scale and geographic spread of the Programme, the State Department is procuring Pump Sets and other Mechanical, Electrical and Plumbing (MEP) equipment. This procurement is conducted under the Specially Permitted Procurement Method (SPPM) pursuant to Section 114A of the PPADA and Regulation 107. The SPPM will identify and award multiple suppliers through a single-category, national-level Framework Agreement established under the Specially Permitted Procurement Method (SPPM). The Framework Agreement shall have a duration of ten (10) years, subject to performance and budgetary appropriation.

The Framework Agreement will establish a ranked panel of pre-qualified suppliers (minimum three (3) and maximum eight (8) responsive tenderers) for the manufacture, assembly, delivery, installation, testing, commissioning, and subsequent ten (10)-year post-Defects Liability Period maintenance of Pump Sets across multiple Affordable Housing Programme project sites nationwide.

No fixed regional packages, pre-determined geographical allocations, or guaranteed minimum quantities will be established at the tender stage. Instead, the Framework Agreement creates a flexible national panel from which the Procuring Entity shall issue multiple call-off contracts strictly as and when sites become ready and funding is approved. Each call-off shall be awarded sequentially according to actual operational needs using either:

- i. direct call-off to the highest-ranked available panel member at the original tendered unit rates (the default and preferred method for speed and efficiency where specifications and delivery schedules remain substantially unchanged), or
- ii. Call-off orders shall be issued to available and capable panel members (minimum three invited) whenever the call-off involves large quantities, special technical requirements, significant lead-time variations, or the highest-ranked supplier is unavailable or at capacity.

In all cases, pricing for every call-off shall be determined exclusively by applying the original tendered unit rates and prices contained in the Framework Agreement, thereby ensuring full transparency, value for money, equal treatment of panel members, and strict compliance with the Public Procurement and Asset Disposal Act, 2015 and its Regulations.

Based on the current Affordable Housing Programme pipeline, Pump Set demand is projected to remain substantial and sustained over multiple years. The inclusion of a mandatory ten (10)-year maintenance obligation and structured industrial participation requirements is intended to encourage credible long-term investment in local assembly and manufacturing capacity within Kenya, consistent with national industrialization objectives

This procurement structure is therefore designed not only to ensure timely delivery of Pump Set installations across AHP sites, but also to support the development of durable domestic supply chains and long-term technical capacity in critical MEP systems.

- 29.1. Information relating to the evaluation of Tenders and recommendation of Framework Agreement award, shall not be disclosed to Tenderers or any other persons not officially concerned with the Tendering process until information on Intention to Award the Framework Agreement is transmitted to all Tenderers in accordance with ITT 44.
- 29.2. Any effort by a Tenderer to influence the Procuring Entity in the evaluation of the Tenders or Framework Agreement award decisions may result in the rejection of its Tender.
- 29.3. Notwithstanding ITT 29.2, from the time of Tender opening to the time of Framework Agreement Award, if any Tenderer wishes to contact the Procuring Entity on any matter related to the Tendering process, it should do so in writing.

30. Clarification of Tenders

- 30.1. To assist in the examination, evaluation, and comparison of the Tenders, and qualification of the Tenderers, the Procuring Entity may, at its discretion, ask any Tenderer for a clarification of its

Tender. Any clarification submitted by a Tenderer that is not in response to a request by the Procuring Entity shall not be considered. The Procuring Entity's request for clarification and the response shall be in writing. No change in the prices or substance of the Tender shall be sought, offered, or permitted, except to confirm the correction of arithmetic errors discovered by the Procuring Entity in the evaluation of the Tenders, in accordance with ITT 34.

30.2. If a Tenderer does not provide clarifications of its Tender by the date and time set in the Procuring Entity's request for clarification, its Tender may be rejected.

31. Deviations, Reservations, and Omissions

31.1. During the evaluation of Tenders, the following definitions apply:

- a) "Deviation" is a departure from the requirements specified in the Tendering document;
- b) "Reservation" is the setting of limiting conditions or withholding from complete acceptance of the requirements specified in the Tendering document; and
- c) "Omission" is the failure to submit part or all of the information or documentation required in the Tendering document.

32. Determination of Responsiveness

32.1. The Procuring Entity's determination of a Tender's responsiveness is to be based on the contents of the Tender itself, as defined in ITT 11.

32.2. A substantially responsive Tender is one that meets the requirements of the Tendering document without material deviation, reservation, or omission. A material deviation, reservation, or omission is one that:

- a) If accepted, would:
 - i. Affect in any substantial way the scope, quality, or performance of the Plant and Installation Services specified in the Framework Agreement; or
 - ii. Limit in any substantial way, in consistent with the Tendering document, the Procuring Entity's rights or the Tenderer's obligations under the proposed Framework Agreement; or
- b) if rectified, would unfairly affect the competitive position of other Tenderers presenting substantially responsive Tenders.

32.3. The Procuring Entity shall examine the technical aspects of the Tender in particular, to confirm that all requirements of Part 2 – Procuring Entity's Requirements have been met without any material deviation, reservation, or omission.

32.4. If a Tender is not substantially responsive to the requirements of the Tendering document, it shall be rejected by the Procuring Entity and may not subsequently be made responsive by correction of the material deviation, reservation, or omission.

33. Nonmaterial Non-conformities

33.1. Provided that a Tender is substantially responsive, the Procuring Entity may waive any non-conformity in the Tender.

- 33.2. Provided that a Tender is substantially responsive, the Procuring Entity may request that the Tenderer submit the necessary information or documentation, within a reasonable period of time, to rectify nonmaterial non-conformities in the Tender related to documentation requirements. Requesting information or documentation on such non-conformities shall not be related to any aspect of the price of the Tender. Failure of the Tenderer to comply with the request may result in the rejection of its Tender.
- 33.3. Provided that a Tender is substantially responsive, the Procuring Entity shall rectify quantifiable nonmaterial non-conformities related to the Tender Price. To this effect, the Tender Price shall be adjusted, for comparison purposes only, to reflect the price of a missing or non-conforming item or component in the manner specified in the **TDS**.

34. Correction of Arithmetical Errors

- 34.1. Provided that the tender is substantially responsive, the Procuring Entity shall correct arithmetical errors on the following basis:
- a) If there is a discrepancy between the unit price and the total price that is obtained by multiplying the unit price and quantity, the unit price shall prevail and the total price shall be corrected, unless in the opinion of the Procuring Entity there is an obvious misplacement of the decimal point in the unit price, in which case the total price as quoted shall govern and the unit price shall be corrected;
 - b) If there is an error in a total corresponding to the addition or subtraction of subtotals, the subtotals shall prevail and the total shall be corrected; and
 - c) If there is a discrepancy between words and figures, the amount in words shall prevail, unless the amount expressed in words is related to an arithmetic error, in which case the amount in figures shall prevail subject to (a) and (b) above.
- 34.2. Any error detected if considered a major deviation that affects the substance of the tender, shall lead to disqualification of the tender as non-responsive. The method of determining the error as a major deviation shall be specified in the **TDS**.
- 34.3. Corrected tender prices shall not be used in the evaluation of tenders, comparison of tender prices.
- 34.4. The Procuring Entity shall calculate the difference between the corrected price and tender price and work out the percentage difference, which will be plus or minus tender price as the case may be; [i.e. (corrected tender price– tender price)/ tender price X100]. This percentage difference between corrected tender price and tender price may be used to determine if the error so detected is considered a major deviation that affects the substance of the tender.
- 34.5. On award of Framework Agreement, all payment valuation certificates, variation orders on omissions and additions valued based on rates in the Bill of Quantities will be adjusted by such a percentage specified in ITT 34.4 to ensure Contractor is not paid less or more relative to the Framework Agreement price which would be the tender price.
- #### **35. Conversion to Single Currency**
- 35.1. For evaluation and comparison purposes, the currency(ies) of the Tender shall be converted into a single currency as specified in the **TDS**.

36. Margin of Preference

- 36.1. A margin of preference may be allowed on locally manufactured goods (plant and equipment) only when the Framework Agreement is open to international tendering, where the tender is likely to attract foreign goods and where the Framework Agreement exceeds the threshold specified in the Regulations.
- 36.2. A margin of preference shall not be allowed unless it is specified so in the **TDS**.
- 36.3. Framework Agreements procured on basis of international tendering and competition shall not be subject to reservations exclusive/ specific groups under women, youth and persons living with disability.
- 36.4. Where it is intended to reserve a Framework Agreement to a specific group of businesses (these groups are Small and Medium Enterprises, Women Enterprises, Youth Enterprises and Enterprises of persons living with disability, as the case may be), and who are appropriately registered as such by a competent authority, a procuring entity shall ensure that the invitation to tender specifically indicates that only businesses or firms belonging to the specified group are eligible to tender. Tender shall be reserved to only one group. If not so stated in the Tender documents, the invitation to tender will be open to all interested tenderers.

37. Evaluation of Tenders

- 37.1. The Procuring Entity shall use the criteria and methodologies listed in this ITT and Section III – Evaluation and Qualification criteria. No other evaluation criteria or methodologies shall be permitted. By applying the criteria and methodologies the Procuring Entity shall determine the Best Evaluated Tender, rank responsive Tenderers accordingly, and establish a panel for the Framework Agreement award. The tenders shall be ranked provided the Tenderer(s) meet the qualification criteria and their respective tenders has been determined to be:
- a) Most responsive to the Tendering document; and
 - b) Having pricing compliant with provided fixed amounts
- ~~37.2.~~ The evaluation shall be conducted to support award of framework agreements to multiple responsive and qualified Tenderers, in accordance with the minimum and maximum number of suppliers specified in the **TDS**. Framework Agreement award shall not be based on regional packages. Call-off contracts shall be issued to framework suppliers strictly in accordance with the call-off allocation mechanism set out in the Framework Agreement and the **TDS**.
- 37.3. **Technical Evaluation.** The Procuring Entity will carry out a detailed technical evaluation of the Tenders not previously rejected to determine whether the technical aspects are in compliance with the Tendering document. The Tender that does not meet minimum acceptable standards of completeness, consistency and detail, and the specified minimum (or maximum, as the case may be) requirements for specified functional guarantees, will be rejected for non-responsiveness. In order to reach its determination, the Procuring Entity will examine and compare the technical aspects of the Tenders on the basis of the information supplied by the Tenderers, taking into account the following:
- a) Overall completeness and compliance with the Procuring Entity's Requirements; conformity of the Plant and Installation Services offered with specified performance criteria, including conformity with the specified minimum (or maximum, as the case may be) requirement corresponding to each functional guarantee, as indicated in the Specification and in Section III, Evaluation and Qualification Criteria; suitability of the Plant and Installation Services

offered in relation to the environmental and climatic conditions prevailing at the site; and quality, function and operation of any process control concept included in the Tender;

- b) type, quantity and long-term availability of mandatory and recommended spare parts and maintenance services; and
- c) other relevant factors, if any, listed in Section III – Evaluation and Qualification Criteria.

37.4. Where alternative technical solutions have been allowed in accordance with ITT 13, and offered by the Tenderer, the Procuring Entity will make a similar evaluation of the alternatives. Where alternatives have not been allowed but have been offered, they shall be ignored.

37.5. **Economic Evaluation.** To evaluate a Tender, the Procuring Entity shall consider the following:

- a) the Tender price, excluding provisional sums and the provision, if any, for contingencies in the Price Schedules;
- b) price adjustment due to discounts offered in accordance with ITT 19;
- c) price adjustment due to quantifiable nonmaterial non-conformities in accordance with ITT 33.3;
- d) converting the amount resulting from applying (a) to (c) above, if relevant, to a single currency in accordance with ITT 35; and
- e) the evaluation factors specified in the **TDS** and in Section III – Evaluation and Qualification Criteria.

37.6. If price adjustment is allowed in accordance with ITT 19, the estimated effect of the price adjustment provisions of the Conditions of Framework Agreement, applied over the period of execution of the Framework Agreement, shall not be taken into account in Tender evaluation.

37.7. In the case of multiple contracts or lots, Tenderers are allowed to tender for one or more lots and the methodology to determine the lowest evaluated cost of the lot (Framework Agreement) and for combinations, including any discounts offered in the Form of Tender, is specified in Section III – Evaluation and Qualification Criteria.

38. Comparison of Tenders

38.1. The Procuring Entity shall compare the evaluated costs and technical responsiveness of all substantially responsive Tenders established in accordance with Section III and shall determine a ranked list of Tenderers for Framework Agreement award, in accordance with the methodology specified in the Tender Data Sheet and Section III.

39. Abnormally Low Tenders and Abnormally High Tenders

39.1. An Abnormally Low Tender is one where the Tender price, in combination with other elements of the Tender, appears so low that it raises material concerns as to the capability of the Tenderer to perform the Framework Agreement for the offered Tender Price or that genuine competition between Tenderers is compromised.

39.2. In the event of identification of a potentially Abnormally Low Tender, the Procuring Entity shall seek written clarifications from the Tenderer, including detailed price analyses of its Tender price in correlation to the subject matter of the Framework Agreement, scope, proposed methodology,

schedule, allocation of risks and responsibilities and any other requirements of the Tendering document.

- 39.3. After evaluation of the price analyses, in the event that the Procuring Entity determines that the Tenderer has failed to demonstrate its capability to deliver the Framework Agreement for the offered tender price, the Procuring Entity shall reject the Tender.
- 39.4. An abnormally high price is one where the tender price, in combination with other constituent elements of the Tender, appears unreasonably too high to the extent that the Procuring Entity is concerned that it (the Procuring Entity) may not be getting value for money or it may be paying too high a price for the Framework Agreement compared with market prices or that genuine competition between Tenderers is compromised.
- 39.5. In case of an abnormally high tender price, the Procuring Entity shall make a survey of the market prices, check if the estimated cost of the Framework Agreement is correct and review the Tender Documents to check if the specifications, scope of work and conditions of Framework Agreement are contributory to the abnormally high tenders. The Procuring Entity may also seek written clarification from the tenderer on the reason for the high tender price. The Procuring Entity shall proceed as follows:
- i. If the tender price is abnormally high based on wrong estimated cost of the Framework Agreement, the Procuring Entity may accept or not accept the tender depending on the Procuring Entity's budget considerations.
 - ii. If specifications, scope of work and/or conditions of Framework Agreement are contributory to the abnormally high tender prices, the Procuring Entity shall reject all tenders and may retender for the Framework Agreement based on revised estimates, specifications, scope of work and conditions of Framework Agreement, as the case may be.
- 39.6. If the Procuring Entity determines that the Tender Price is abnormally too high because genuine competition between tenderers is compromised (*often due to collusion, corruption or other manipulations*), the Procuring Entity shall reject all Tenders and shall institute or cause competent Government Agencies to institute an investigation on the cause of the compromise, before retendering.

40. Unbalanced or Front-Loaded Tenders

- 40.1. If the Tender that is evaluated as the lowest evaluated cost is, in the Procuring Entity's opinion, seriously unbalanced or front loaded the Procuring Entity may require the Tenderer to provide written clarifications. Clarifications may include detailed price analyses to demonstrate the consistency of the Tender prices with the scope of works, proposed methodology, schedule and any other requirements of the Tendering document.
- 40.2. After the evaluation of the information and detailed price analyses presented by the Tenderer, the Procuring Entity may:
- a) Accept the Tender; or
 - b) If appropriate, require that the total amount of the Performance Security be increased, at the expense of the Tenderer, to a level not exceeding ten percent (10%) of the Framework Agreement Price; or
 - c) Reject the Tender.

41. Eligibility and Qualification of the Tenderer

- 41.1. The Procuring Entity shall determine to its satisfaction whether each Tenderer that has been ranked for Framework Agreement award and has submitted a substantially responsive Tender is eligible and meets the qualifying criteria specified in Section III – Evaluation and Qualification Criteria.
- 41.2. The determination shall be based upon an examination of the documentary evidence of the Tenderer's qualifications submitted by the Tenderer, pursuant to ITT 17.1. The determination shall not take into consideration the qualifications of other firms such as the Tenderer's subsidiaries, parent entities, affiliates, subcontractors (other than Specialized Subcontractors if permitted in the Tendering document) or any other firm (s) different from the Tenderer.
- 41.3. An affirmative determination shall be a prerequisite for award of the Framework Agreement to each Tenderer. A negative determination shall result in disqualification of the Tender, in which event the Procuring Entity shall proceed to the next-ranked Tenderer offering a substantially responsive Tender to make a similar determination of that Tenderer's qualifications to perform satisfactorily.
- 41.4. The capabilities of the manufacturers and subcontractors proposed in its Tender to be used by each shortlisted Tenderer for identified major items of supply or services will also be evaluated for acceptability in accordance with Section III, Evaluation and Qualification Criteria. Their participation should be confirmed with a Form of intent between the parties, as needed. Should a manufacturer or subcontractor be determined to be unacceptable, the Tender will not be rejected, but the Tenderer will be required to substitute an acceptable manufacturer or subcontractor without any change to the Tender price.
- 41.5. Prior to signing the Framework Agreement, the corresponding Appendix to the Framework Agreement shall be completed, listing the approved manufacturers or subcontractors for each item concerned.

42. Procuring Entity's right to Accept Any Tender and to Reject Any or All Tenders

- 42.1. The Procuring Entity reserves the right to accept or reject any Tender, and to annul the Tendering process and reject all Tenders at any time prior to Framework Agreement Award, without there by incurring any liability to Tenderers. In case of annulment, all Tenders submitted and specifically, Tender securities shall be promptly returned to the Tenderers.

F. Award of Framework Agreement

43. Award Criteria

- 43.1. Subject to ITT 42, the Procuring Entity shall award the Framework Agreement(s) to the successful Tenderer(s). Successful Tenderers are those whose Tenders have been determined to be substantially responsive to the Tendering Document, meet the qualification criteria, and have been evaluated and ranked in accordance with Section III and the Tender Data Sheet.

44. Notice of Intention to Enter into a Framework Agreement/ Notification of Award

- 44.1. When a Standstill Period applies, it shall commence when the Procuring Entity has transmitted to each Tenderer the Notification of Intention to Award the Framework Agreement to the successful Tenderer. The Notification of Intention to Award shall contain, at a minimum, the following information:

- a) The name and address of the Tenderer submitting the successful Tender;

- b) The Framework Agreement price of the successful Tender;
- c) A statement of the reason (s) the Tender (of the unsuccessful Tenderer to whom the Form is addressed) was unsuccessful, unless the price information in c) above already reveals the reason;
- d) The expiry date of the Standstill Period; and
- e) Instructions on how to request a debriefing and/ or submit a complaint during the standstill period.

45. Standstill Period

- 45.1. The Framework Agreement shall not be signed earlier than the expiry of a Standstill Period of 14 days to allow any dissatisfied tender to launch a complaint. Where only one Tender is submitted, the Standstill Period shall not apply.
- 45.2. Where a Standstill Period applies, it shall commence when the Procuring Entity has transmitted to each Tenderer the Notification of Intention to Enter into a Framework Agreement with the successful Tenderer(s).

46. Debriefing by the Procuring Entity

- 46.1. On receipt of the Procuring Entity's Notification of Intention to Enter into a Framework Agreement referred to in ITT 44, an unsuccessful tenderer may make a written request to the Procuring Entity for a debriefing on specific issues or concerns regarding their tender. The Procuring Entity shall provide the debriefing within five days of receipt of the request.
- 46.2. Debriefings of unsuccessful Tenderers may be done in writing or verbally. The Tenderer shall bear its own costs of attending such a debriefing meeting.

47. Letter of Award

- 47.1. Prior to the expiry of the Tender Validity Period and upon expiry of the Standstill Period specified in ITT 45.1, upon addressing a complaint that has been filed within the Standstill Period, the Procuring Entity shall transmit the Letter of Award to the successful Tenderer. The letter of award shall request the successful tenderer to furnish the Performance Security within 21 days of the date of the letter.

48. Signing of Framework Agreement

- 48.1. Upon the expiry of the fourteen days of the Notification of Intention to enter into Framework Agreement and upon the parties meeting their respective statutory requirements, the Procuring Entity shall send the successful Tenderer the Framework Agreement.
- 48.2. Within fourteen (14) days of receipt of the Framework Agreement, the successful Tenderer shall sign, date, and return it to the Procuring Entity.
- 48.3. The written Framework Agreement shall be entered into within the period specified in the notification of award and before expiry of the tender validity period.
- 48.4. Notwithstanding ITT 48.2 above, in case signing of the Framework Agreement is prevented by any export restrictions attributable to the Procuring Entity, to the country of the Procuring Entity, or to the use of the Plant and Installation Services to be supplied, where such export restrictions arise from trade regulations from a country supplying those Plant and Installation Services, the Tenderer shall not be bound by its Tender, always provided, however, that the Tenderer can

demonstrate to the satisfaction of the Procuring Entity that signing of the Contact Agreement has not been prevented by any lack of diligence on the part of the Tenderer in completing any formalities, including applying for permits, authorizations and licenses necessary for the export of the Plant and Installation Services under the terms of the Framework Agreement.

49. Performance Security

- 49.1. Within twenty-one (21) days of the receipt of the Form of Acceptance from the Procuring Entity, the successful Tenderer shall furnish the Performance Security in accordance with the General Conditions GCC 13.3, subject to ITT 40.2, using for that purpose the Performance Security Form included in Section VIII – Framework Agreement Forms, or another form acceptable to the Procuring Entity. If the Performance Security furnished by the successful Tenderer is in the form of a bond, it shall be issued by a bonding or insurance company that has been determined by the successful Tenderer to be acceptable to the Procuring Entity. A foreign institution providing a bond shall have a correspondent financial institution located in Kenya, unless the Procuring Entity has agreed in writing that a correspondent financial institution is not required.
- 49.2. Failure of the successful Tenderer to submit the above-mentioned Performance Security or sign the Framework Agreement shall constitute sufficient grounds for the annulment of the award and forfeiture of the Tender Security. In that event the Procuring Entity may award the Framework Agreement to the next-ranked Tenderer on the panel.

50. Publication of Procurement Framework Agreement

- 50.1. Within fourteen days after signing the Framework Agreement, the Procuring Entity shall publish the awarded Framework Agreement at its notice boards and websites; and on the Website of the Authority. At the minimum, the notice shall contain the following information:

If the Tenderer disagrees with this proposal, the Tenderer should so state in his Tender. If, in the Letter of Acceptance, the Procuring Entity does not agree on the appointment of the Adjudicator, the Procuring Entity will request the Appointing Authority designated in the Special Conditions of Framework Agreement (SCC) pursuant to Clause 23.1 of the General Conditions of Framework Agreement (GCC), to appoint the Adjudicator.

52. Procurement Related Complaint and Administrative Review

- 52.1. The procedures for making a Procurement-related Complaint are as specified in the **TDS**.

iv. Life Cycle Costs

Since the operating and maintenance costs of the facilities being procured form a major part of the life cycle cost of the facilities, these costs will be evaluated according to the principles given here after, including the cost of spare parts for the initial period of operation stated below and based on prices furnished by each Tenderer in Price Schedule Nos. 1 and 2, as well as on past experience of the Procuring Entity or other Procuring Entity's similarly placed. Such costs shall be added to the Tender price for evaluation. The operating and maintenance costs factors for calculation of the life cycle cost are:

- a. **Number of years for lifecycle:** 20 Years
- b. **Operating costs:** the Tenderer to include and cost all the expected operational costs during the Defects Liability Period (one Year) and one year beyond the period.
- c. **Maintenance costs, including the cost of spare parts for the initial period of operation:** the Tenderer to include and cost all the expected operational costs during the Defects Liability Period (one Year) and 10 years beyond the Defects Liability Period.
- d. **Discount rate:** [insert discount rate in percent] to be used to discount to present value all annual future costs calculated under (ii) and (iii) above for the period specified in (i).

The price of recommended spare parts quoted in Price Schedule No.6 shall not be considered for evaluation.

v. Functional Guarantees of the Facilities

The minimum (or maximum) requirements stated in the Specification for functional guarantees required in the Specification are:

Functional Guarantee	Minimum (or Maximum, as appropriate) Requirement
1. Mechanical Operation	<ul style="list-style-type: none"> • Ensure the pump starts and stops correctly • Confirm smooth and stable operation (no excessive vibration or noise).
2. Temperature Checks	<ul style="list-style-type: none"> • Monitor motor, bearing, and casing temperatures. • Ensure temperature is within operational limits.
3. Noise and Vibration Levels	<ul style="list-style-type: none"> • Listen for abnormal sounds (grinding & knocking). • Measure vibration levels (within manufacturer’s tolerances).
4. Pump Controls	<ul style="list-style-type: none"> • Ensure automatic controls or VFDs respond as expected

For the purposes of evaluation, for each percentage point that the functional guarantee of the proposed Plant and Installation Services is below the norm specified in the Specification and in the above table, but above the minimum acceptable levels also specified there in, an adjustment of as per ITT 33.3 in TDS will be added to the Tender price. If the drop below the norm or the excess above the minimum acceptable levels is less than one percent, the adjustment will be appropriated accordingly.

vi. Work, services, facilities, etc., to be provided by the Procuring Entity.

Where Tenders include the undertaking of work or the provision of services or facilities by the Procuring Entity in excess of the provisions allowed for in the Tendering document, the Procuring Entity shall assess the costs of such additional work, services and/or facilities during the duration of the Framework Agreement. Such costs shall be added to the Tender price for evaluation.

vii) Specific addition criteria, the relevant evaluation method, if any, shall be as follows:

.....
 Any adjustments in price that result from the above procedures shall be added, for purposes of comparative evaluation only, to arrive at an “Evaluated Tender Price.” Tender prices quoted by Tenderers shall remain unaltered.

4.3. Evaluation of Commercial Terms and Conditions of the Tender (ITT 37.1):

The Procuring Entity shall determine whether the Tenders are substantially responsive to the Commercial and Framework Contractual Terms and Conditions (e.g. Performance securities, Payment and delivery schedules).

4.4. Evaluation Criteria (Other Factors) (ITT 37.5(e))

The Procuring Entity’s evaluation of a Tender may take into account, in addition to the Tender Price quoted in accordance with ITT 19.8, one or more of the following factors as specified in ITT 37.3(c) and in TDS ITT 37.5(e), using the following criteria and methodologies.

a) Delivery schedule.

The Goods specified in the List of Goods are required to be delivered within the acceptable time range (after the earliest and before the final date, both dates inclusive) specified in Section V – Schedule of Requirements. No credit will be given to deliveries before the earliest date, and Tenders offering delivery after the final date shall be treated as non-responsive. Within this acceptable period, an adjustment of [insert the adjustment factor], will be added, for evaluation purposes only, to the Tender price of Tenders offering deliveries later than the “Earliest Delivery Date” specified in Section V – Schedule of Requirements.

[An adjustment factor of 0.5% per week of delay would be reasonable. However, the adjustment factor should not be more than the rate of Liquidated Damages to be applied in case of delay in delivery of Goods and Services under the Framework Agreement conditions.]

b) Deviation in payment schedule. [insert one of the following]

- i. tenderers shall state their Tender price for the payment schedule outlined in the SCC. Tenders shall be evaluated on the basis of this base price. tenderers are, however, permitted to state an alternative payment schedule and indicate the reduction in Tender price they wish to offer for such alternative payment schedule. The Procuring Entity may consider the alternative payment schedule and the reduced Tender price offered by the tenderer selected on the basis of the base price for the payment schedule outlined in the SCC.

Or

- ii. The SCC stipulates the payment schedule specified by the Procuring Entity. If a Tender deviate from the schedule and if such deviation is considered acceptable to the Procuring Entity, the Tender will be evaluated by calculating interest earned for any earlier payments involved in the terms outlined in the Tender as compared with those stipulated in the SCC, at the rate per annum [insert adjustment rate].

c) Cost of major replacement components, mandatory spare parts, and service. [insert one of the following]

The list of items and quantities of major assemblies, components, and selected spare parts, likely to be required during the initial period of operation specified in the **TDS** 15.4, is in the List of Goods. An adjustment equal to the total cost of these items, at the unit prices quoted in each Tender, shall be added to the Tender price, for evaluation purposes only.

2 or

The Procuring Entity will draw up a list of high-usage and high-value items of components and spare parts, along with estimated quantities of usage in the initial period of operation specified in the **TDS** 15.4. The total cost of these items and quantities will be computed from spare parts unit prices submitted by the tenderer and added to the Tender price, for evaluation purposes only.

3 or

Tenderer shall provide along with its Tender, the list of recommended spare parts for Goods offered indicating for each item of spare part the recommended quantity and unit, and total CIP final destination prices required during the initial period of operation specified in the **TDS** 15.4. The prices offered shall not exceed the prevailing prices charged to other parties by the Tenderer. The cost of such spare parts will not be taken into account for tender evaluation. The Procuring Entity may award the Framework Agreement for spare parts to the Tenderer that is successful for the supply of Goods, by selecting at its option, from the Tender's list of recommended spare parts, such items and quantities against each as the Procuring Entity may deem appropriate at the unit prices indicated by the Tenderer but not exceeding ----% (present) of the cost of Goods [normally not more than 10% or 15%.]

d) **Availability in Kenya of spare parts and after sales services for equipment offered in the Tender.**

An adjustment equal to the cost to the Procuring Entity of establishing the minimum service facilities and parts inventories if quoted separately, shall be added to the Tender price, for evaluation purposes only.

5. Multiple Contracts (ITT 37.7)

5.1. This procurement is conducted as a single national category without regional lots. Tenderers are evaluated and ranked to establish a multi-supplier panel. [*The Procuring Entity will select one Option of the two Options listed below for award of Contracts.*]

OPTION1

- i. If a tenderer wins only one Lot, the tenderer will be awarded a contract for that Lot, provided the tenderer meets the Eligibility and Qualification Criteria for that Lot.
- ii. If a tenderer wins more than one Lot, the tenderer will be awarded contracts for all won Lots, provided the tenderer meets the aggregate Eligibility and Qualification Criteria for all the Lots. The tenderer will be awarded the combination of Lots for which the tenderer qualifies and the others will be considered for award to second lowest the tenderers.

OPTION 2

The Procuring Entity will consider all possible combinations of won Lots [contract(s)] and determine the combinations with the lowest evaluated price. Tenders will then be awarded to the Tenderer or Tenderers in the combinations provided the tenderer meets the aggregate Eligibility and Qualification Criteria for all the won Lots.

6. Margin of Preference

6.1. If the **TDS** so specifies, the Procuring Entity will grant a margin of preference of 15% (fifteen percent) to Tenderers offering goods manufactured, mined, extracted, grown, assembled or semi-processed in Kenya. Goods assembled or semi-processed in Kenya shall have a local content of not less than 40%.

6.2. The margin of preference will be applied in accordance with, and subject to, the following provisions:

- a) Tenderers applying for such preference on goods offered shall be asked to provide, as part of the data for qualification, such information, including details of the goods produced in Kenya, so as to determine whether, according to the classification established by the Procuring Entity, a particular category of goods or group of goods qualifies for a margin of preference.
- b) After Tenders have been received and reviewed by the Procuring Entity, goods offered in the responsive Tenders shall be assessed to ascertain they are manufactured, mined, extracted, grown, assembled or semi-processed in Kenya. Responsive tenders shall be classified into the following groups:
 - i. **Group A:** Tenders offering goods manufactured in Kenya, for which (a) labor, raw materials, and components from within Kenya account for more than forty (40) percent of the Ex-Works price; and the production facility in which they will be manufactured or assembled has been engaged in manufacturing or assembling such goods at least since the date of Tender submission date;
 - ii. **Group B:** All other Tenders offering Goods manufactured in Kenya;

- iii. **Group C:** Tenders offering Goods manufactured outside Kenya that have been already imported or that will be imported.

- 6.3. To facilitate this classification by the Procuring Entity, the tenderer shall complete whichever version of the Price Schedule furnished in the Tendering document is appropriate, provided however, that the completion of an in correct version of the Price Schedule by the Tenderer shall not result in rejection of its Tender, but merely in the Procuring Entity's reclassification of the Tender into its appropriate Tender group.
- 6.4. The Tenders in each group will then be compared to determine the Tender with the lowest evaluated cost in that group. The lowest evaluated cost Tender from each group shall then be compared with each other and if as a result of this comparison a Tender from Group A or Group B is the lowest, it shall be selected for the award.
- 6.5. If as a result of the preceding comparison, a Tender from Group C is the lowest evaluated cost, an amount equal to or 15% of the respective tender price, including unconditional discounts and excluding provisional sums, if any, shall be added to the evaluated price offered in each tender from Group C. If the tender from Group C is still the lowest tender, it shall be selected for award. If not, the lowest evaluated tender from Group A or B based on the first evaluation price shall be selected.

7. **Alternative Tenders (ITT 15.1)**

An alternative if permitted under ITT 15.1, will be evaluated as follows:

The Procuring Entity shall consider Tenders offered for alternatives as specified in Part 2 – Procuring Entity's requirements. Only the technical alternatives, if any, of the Tenderer with the Best Evaluated Tender conforming to the basic technical requirements shall be considered by the Procuring Entity.

8. **Post Qualification and Contract Award (ITT 41), more specifically:**

- a) In case the tender was subject to post-qualification, Framework Agreements shall be awarded to shortlisted Tenderers in accordance with the panel ranking, subject to confirmation of prequalification data, if so required.
- b) In case the tender was not subject to post-qualification, each Tenderer that has been ranked for Framework Agreement award shall be considered for award, subject to meeting each of the following conditions.
- i. The Tenderer shall demonstrate that it has access to, or has available, liquid assets, unencumbered real assets, lines of credit, and other financial means (independent of any contractual advance payment) sufficient to meet the construction cash flow of Kenya Shillings

 - iii. At least **5 No.** of contract (s) of a similar nature executed within Kenya, or the East African Community or abroad, that have been satisfactorily and substantially completed as a prime contractor, or joint venture member or sub-contractor each of minimum value Kenya shillings **KES.20,000,000.00** equivalent.

- iv. Contractor's Representative and Key Personnel, which are specified as _____
- v. Contractors key equipment listed on the table "Contractor's Equipment" below and more specifically listed as *[specify requirements for each lot as applicable]*
- vi. Other conditions depending on their seriousness:
 - a. History of non-performing contracts:**

PRICE ADJUSTMENT

Where the Framework Agreement Period (excluding the Defects Liability Period) exceeds eighteen (18) months, it is normal procedure that prices payable to the Contractor shall be subject to adjustment during the performance of the Framework Agreement to reflect changes occurring in the cost of labor and material components. In such cases the Tendering document shall include in this form a formula of the following general type, pursuant to SCC Sub-Clause 11.2.

Where Framework Agreements are of a shorter duration than eighteen (18) months or in cases where there is to be no Price Adjustment, the following provision shall not be included. Instead, it shall be indicated under this form that the prices are to remain firm and fixed for the duration of the Framework Agreement.

Sample Price Adjustment Formula

If in accordance with GCC 11.2, prices shall be adjustable, the following method shall be used to calculate the price adjustment.

Prices payable to the Contractor, in accordance with the Framework Agreement, shall be subject to adjustment during performance of the Framework Agreement to reflect changes in the cost of labor and material components, in accordance with the following formula:

$$P_1 = P_0 \times \left(a + b \frac{L_1}{L_0} + c \frac{M_1}{M_0} \right) - P_0$$

P_1 = adjustment amount payable to the Contractor

P_0 = Framework Agreement price (base price)

a = percentage of fixed element in Framework Agreement price ($a = \%$)

b = percentage of labor component in Framework Agreement price ($b = \%$)

c = percentage of material and equipment component in Framework Agreement price ($c = \%$)

L_0, L_1 = labor indices applicable to the appropriate industry in the country of origin on the base date and the date for adjustment, respectively

M_0, M_1 = material and equipment indices in the country of origin on the base date and the date for adjustment, respectively

NB: $a + b + c = 100\%$

Conditions Applicable to Price Adjustment

The Tenderer shall indicate the source of labor, source of exchange rate and materials indices and the base date indices in its Tender.

Item	Source of Indices Used	Base Date Indices

The base date shall be the date thirty (30) days prior to the Tender closing date.

The date of adjustment shall be the mid-point of the period of manufacture or installation of component or Plant. The following conditions shall apply:

- a) No price increase will be allowed beyond the original delivery date unless covered by an extension of time awarded by the Procuring Entity under the terms of the Framework Agreement. No price increase will be allowed for periods of delay for which the Contractor is responsible. The Procuring Entity will, however, be entitled to any price decrease occurring during such periods of delay.
- b) If the currency in which the Framework Agreement price, P_0 , is expressed is different from the currency of the country of origin of the labor and/or materials indices, a correction factor will be applied to avoid incorrect adjustments of the Framework Agreement price. The correction factor shall be:

$$\frac{Z_0}{Z_1}, \text{ where,}$$

Z_0 = the number of units of currency of the origin of the indices which equal to one unit of the currency of the Framework Agreement Price P_0 on the Base date, and

Z_1 = the number of units of currency of the origin of the indices which equal to one unit of the currency of the Framework Agreement Price P_0 on the Date of Adjustment.

- c) No price adjustment shall be payable on the portion of the Framework Agreement price paid to the Contractor as an advance payment.

The Party or Parties affected by the event of Force Majeure shall use reasonable efforts to mitigate the effect thereof upon its or their performance of the Framework Agreement and to fulfill its or their obligations under the Framework Agreement, but without prejudice to either Party's right to terminate the Framework Agreement under GCC Sub-Clauses 37.6 and 38.5.

37.5. No delay or nonperformance by either Party hereto caused by the occurrence of any event of Force Majeure shall

- a) constitute a default or breach of the Framework Agreement, or
- b) give rise to any claim for damages or additional cost or expense occasioned thereby, subject to GCC Sub-Clauses 32.2, 38.3 and 38.4

if and to the extent that such delay or nonperformance is caused by the occurrence of an event of Force Majeure.

37.6. If the performance of the Framework Agreement is substantially prevented, hindered or delayed for a single period of more than sixty (60) days or an aggregate period of more than one hundred and twenty (120) days on account of one or more events of Force Majeure during the currency of the Framework Agreement, the Parties will attempt to develop a mutually satisfactory solution, failing which either Party may terminate the Framework Agreement by giving a notice to the other, but without prejudice to either Party's right to terminate the Framework Agreement under GCC Sub-Clause 38.5.

37.7. In the event of termination pursuant to GCC Sub-Clause 37.6, the rights and obligations of the Procuring Entity and the Contractor shall be as specified in GCC Sub-Clauses 42.1.2 and 42.1.3.

38.1. "War Risks" shall mean any event specified in paragraphs (a) and (b) of GCC Sub-Clause 37.1 and any explosion or impact of any mine, bomb, shell, grenade or other projectile, missile, munitions or explosive of war, occurring or existing in or near the country (or countries) where the Site is located.

38.2. Notwithstanding anything contained in the Framework Agreement, the Contractor shall have no liability whatsoever for or with respect to:

- a) destruction of or damage to Facilities, Plant, or any part thereof;
- b) destruction of or damage to property of the Procuring Entity or any third Party; or
- c) injury or loss of life

if such destruction, damage, injury or loss of life is caused by any War Risks, and the Procuring Entity shall indemnify and hold the Contractor harmless from and against any and all claims, liabilities, actions, lawsuits, damages, costs, charges or expenses arising in consequence of or in connection with the same.

38.3. If the Facilities or any Plant or Contractor's Equipment or any other property of the Contractor used or intended to be used for the purposes of the Facilities shall sustain destruction or damage by reason of any War Risks, the Procuring Entity shall pay the Contractor for:

- a) any part of the Facilities or the Plant so destroyed or damaged to the extent not already paid for by the Procuring Entity and so far as may be required by the Procuring Entity, and as may be necessary for completion of the Facilities
- b) replacing or making good any Contractor's Equipment or other property of the Contractor so destroyed or damaged
- c) replacing or making good any such destruction or damage to the Facilities or the Plant or any part thereof.

If the Procuring Entity does not require the Contractor to replace or make good any such destruction or damage to the Facilities, the Procuring Entity shall either request a change in accordance with GCC Clause 39, excluding the performance of that part of the Facilities thereby destroyed or damaged or, where the loss, destruction or damage affects a substantial part of the Facilities, shall terminate the Framework Agreement, pursuant to GCC Sub-Clause 42.1. If the Procuring Entity requires the Contractor to replace or make good on any such destruction or damage to the Facilities, the Time for Completion shall be extended in accordance with GCC 40.

38.4. Notwithstanding anything contained in the Framework Agreement, the Procuring Entity shall pay the Contractor for any increased costs or incidentals to the execution of the Framework Agreement that are in any way attributable to, consequent on, resulting from, or in any way connected with any War Risks, provided that the Contractor shall as soon as practicable notify the Procuring Entity in writing of any such increased cost.

- 38.5. If during the performance of the Framework Agreement any War Risks shall occur that financially or otherwise materially affect the execution of the Framework Agreement by the Contractor, the Contractor shall use its reasonable efforts to execute the Framework Agreement with due and proper consideration given to the safety of its and its Sub-Contractors' personnel engaged in the work on the Facilities, provided, however, that if the execution of the work on the Facilities becomes impossible or is substantially prevented for a single period of more than sixty (60) days or an aggregate period of more than one hundred and twenty (120) days on account of any War Risks, the Parties will attempt to develop a mutually satisfactory solution, failing which either Party may terminate the Framework Agreement by giving a notice to the other.
- 38.6. In the event of termination pursuant to GCC Sub-Clauses 38.3 or 38.5, the rights and obligations of the Procuring Entity and the Contractor shall be specified in GCC Sub-Clauses 42.1.2 and 42.1.3.

H. Change in Framework Agreement Elements

39. Change in the Facilities

39.1. Introducing a Change

- 39.1.1. Subject to GCC Sub-Clauses 39.2.5 and 39.2.7, the Procuring Entity shall have the right to propose, and subsequently require, that the Project Manager order the Contractor from time to time during the performance of the Framework Agreement to make any change, modification, addition or deletion to, in or from the Facilities here in after called "Change", provided that such Change falls within the general scope of the Facilities and does not constitute unrelated work and that it is technically practicable, taking into account both the state of advancement of the Facilities and the technical compatibility of the Change envisaged with the nature of the Facilities as specified in the Framework Agreement.
- 39.1.2. Value Engineering: The Contractor may prepare, at its own cost, a value engineering proposal at any time during the performance of the Framework Agreement. The value engineering proposal shall, at a minimum, include the following:
- a) The proposed change (s), and a description of the difference to the existing Framework Agreement requirements;
 - b) a full cost/benefit analysis of the proposed change(s) including a description and estimate of costs (including life cycle costs) the Procuring Entity may incur in implementing the value engineering proposal; and
 - c) a description of any effect (s) of the change on performance/ functionality.
 - d) The Procuring Entity may accept the value engineering proposal if the proposal demonstrates benefits that:
 - e) accelerates the delivery period; or
 - f) reduces the Framework Agreement Price or the life cycle costs to the Procuring Entity; or
 - g) improves the quality, efficiency, safety or sustain ability of the Facilities; or
 - h) yields any other benefits to the Procuring Entity, without compromising the necessary functions of the Facilities.
 - i) If the value engineering proposal is approved by the Procuring Entity and results in:
 - j) a reduction of the Framework Agreement Price; the amount to be paid to the Contractor shall be the percentage specified in the SCC of the reduction in the Framework Agreement Price; or
 - k) an increase in the Framework Agreement Price; but results in a reduction in life cycle costs due to any benefit described in (a) to (d) above, the amount to be paid to the Contractor shall be the full increase in the Framework Agreement Price.

39.1.3. Notwithstanding GCC Sub-Clauses 39.1.1 and 39.1.2, no change made necessary because of any default of the Contractor in the performance of its obligations under the Framework Agreement shall be deemed to be a Change, and such change shall not result in any adjustment of the Framework Agreement Price or the Time for Completion.

39.1.4. The procedure on how to proceed with and execute Changes is specified in GCC Sub-Clauses 39.2 and 39.3, and further details and forms are provided in the Procuring Entity's Requirements (Forms and Procedures).

39.2. **Changes Originating from Procuring Entity**

39.2.1. If the Procuring Entity proposes a Change pursuant to GCC Sub-Clause 39.1.1, it shall send to the Contractor a "Request for Change Proposal," requiring the Contractor to prepare and furnish to the Project Manager as soon as reasonably practicable a "Change Proposal," which shall include the following:

- a) Brief description of the Change
- b) Effect on the Time for Completion
- c) Estimated cost of the Change
- d) Effect on Functional Guarantees (if any)
- e) Effect on the Facilities
- f) Effect on any other provisions of the Framework Agreement.

39.2.2. Prior to preparing and submitting the "Change Proposal," the Contractor shall submit to the Project Manager an "Estimate for Change Proposal," which shall be an estimate of the cost of preparing and submitting the Change Proposal.

Upon receipt of the Contractor's Estimate for Change Proposal, the Procuring Entity shall do one of the following:

- a) Accept the Contractor's estimate with instructions to the Contractor to proceed with the preparation of the Change Proposal, or
- b) Advise the Contractor of any part of its Estimate for Change Proposal that is unacceptable and request the Contractor to review its estimate, or
- c) Advise the Contractor that the Procuring Entity does not intend to proceed with the Change.

39.2.3. Upon receipt of the Procuring Entity's instruction to proceed under GCC Sub-Clause 39.2.2 (a), the Contractor shall, with proper expedition, proceed with the preparation of the Change Proposal, in accordance with GCC Sub-Clause 39.2.1.

39.2.4. The pricing of any Change shall, as far as practicable, be calculated in accordance with the rates and prices included in the Framework Agreement. If such rates and prices are inequitable, the Parties there to shall agree on specific rates for the valuation of the Change.

39.2.5. If before or during the preparation of the Change Proposal it becomes apparent that the aggregate effect of compliance there with and with all other Change Orders that have already become binding upon the Contractor under this GCC Clause 39 would be to increase or decrease the Framework Agreement Price as originally set for thin Article 2 (Framework Agreement Price) of the Framework Agreement by more than fifteen percent (15%), the Contractor may give a written notice of objection there to prior to furnishing the Change Proposal as aforesaid. If the Procuring Entity accepts the Contractor's objection, the Procuring Entity shall withdraw the proposed Change and shall notify the Contractor in writing thereof.

The Contractor's failure to so object shall neither affect its right to object to any subsequent requested Changes or Change Orders here in, nor affect its right to take in to account, when making such subsequent objection, the percentage increase or decrease in the Framework Agreement Price that any Change not objected to by the Contractor represents.

- 39.2.6. Upon receipt of the Change Proposal, the Procuring Entity and the Contractor shall mutually agree upon all matters therein contained. Within fourteen (14) days after such agreement, the Procuring Entity shall, if it intends to proceed with the Change, issue the Contractor with a Change Order.

If the Procuring Entity is unable to reach a decision within fourteen (14) days, it shall notify the Contractor with details of when the Contractor can expect a decision.

If the Procuring Entity decides not to proceed with the Change for whatever reason, it shall, within the said period of fourteen (14) days, notify the Contractor accordingly. Under such circumstances, the Contractor shall be entitled to reimbursement of all costs reasonably incurred by it in the preparation of the Change Proposal, provided that these do not exceed the amount given by the Contractor in its Estimate for Change Proposal submitted in accordance with GCC Sub-Clause 39.2.2.

- 39.2.7. If the Procuring Entity and the Contractor cannot reach agreement on the price for the Change, an equitable adjustment to the Time for Completion, or any other matters identified in the Change Proposal, the Procuring Entity may nevertheless instruct the Contractor to proceed with the Change by issue of a "Pending Agreement Change Order."

Upon receipt of a Pending Agreement Change Order, the Contractor shall immediately proceed with effecting the Changes covered by such Order. The Parties shall there after attempt to reach agreement on the outstanding issues under the Change Proposal.

If the Parties cannot reach agreement within sixty (60) days from the date of issue of the Pending Agreement Change Order, then the matter may be referred to the Dispute Board in accordance with the provisions of GCC Sub-Clause 46.1.

39.3. **Changes Originating from Contractor**

- 39.3.1. If the Contractor proposes a Change pursuant to GCC Sub-Clause 39.1.2, the Contractor shall submit to the Project Manager a written "Application for Change Proposal," giving reasons for the proposed Change and including the information specified in GCC Sub-Clause 39.1.2.

- 39.3.2. Upon receipt of the Application for Change Proposal, the Parties shall follow the procedures outlined in GCC Sub-Clauses 39.2.6 and 39.2.7. However, the Contractor shall not be entitled to recover the costs of preparing the Application for Change Proposal.

40. **Extension of Time for Completion**

- 40.1. The Time(s) for Completion specified in the SCC pursuant to GCC Sub-Clause 8.2 shall be extended if the Contractor is delayed or impeded in the performance of any of its obligations under the Framework Agreement by reason of any of the following:

- a) any Change in the Facilities as provided in GCC Clause 39
- b) any occurrence of Force Majeure as provided in GCC Clause 37, unforeseen conditions as provided in GCC Clause 35, or other occurrence of any of the matters specified or referred to in paragraphs (a), (b) and (c) of GCC Sub-Clause 32.2

- f) Any delay on the part of a Sub-Contractor, provided such delay is due to a cause for which the Contractor himself would have been entitled to an extension of time under this sub-clause, or
- g) Delays attributable to the Procuring Entity or caused by customs, or
- h) any other matter specifically mentioned in the Framework Agreement by such period as shall be fair and reasonable in all the circumstances and as shall fairly reflect the delay or impediment sustained by the Contractor.

40.2. Except where otherwise specifically provided in the Framework Agreement, the Contractor shall submit to the Project Manager a notice of a claim for an extension of the Time for Completion, together with particulars of the event or circumstance justifying such extension as soon as reasonably practicable after the commencement of such event or circumstance. As soon as reasonably practicable after receipt of such notice and supporting particulars of the claim, the Procuring Entity and the Contractor shall agree upon the period of such extension. In the event that the Contractor does not accept the Procuring Entity's estimate of a fair and reasonable time extension, the Contractor shall be entitled to refer the matter to a Dispute Board, pursuant to GCC Sub-Clause 46.1.

40.3. The Contractor shall at all times use its reasonable efforts to minimize any delay in the performance of its obligations under the Framework Agreement.

40.4. In all cases where the Contractor has given a notice of a claim for an extension of time under GCC 40.2, the Contractor shall consult with the Project Manager in order to determine the steps (if any) which can be taken to overcome or minimize the actual or anticipated delay. The Contractor shall there after comply with all reasonable instructions which the Project Manager shall give in order to minimize such delay. If compliance with such instructions shall cause the Contractor to incur extra costs and the Contractor is entitled to an extension of time under GCC 40.1, the amount of such extra costs shall be added to the Framework Agreement Price.

41. Suspension

41.1. Procuring Entity may request the Project Manager, by notice to the Contractor, to order the Contractor to suspend performance of any or all of its obligations under the Framework Agreement. Such notice shall specify the obligation of which performance is to be suspended, the effective date of the suspension and the reasons therefor. The Contractor shall thereupon suspend performance of such obligation, except those obligations necessary for the care or preservation of the Facilities, until ordered in writing to resume such performance by the Project Manager.

If, by virtue of a suspension order given by the Project Manager, other than by reason of the Contractor's default or breach of the Framework Agreement, the Contractor's performance of any of its obligations is suspended for an aggregate period of more than ninety (90) days, then at any time there after and provided that at that time such performance is still suspended, the Contractor may give a notice to the Project Manager requiring that the Procuring Entity shall, within twenty-eight (28) days of receipt of the notice, order the resumption of such performance or request and subsequently order a change in accordance with GCC Clause 39, excluding the performance of the suspended obligations from the Framework Agreement.

- 41.2. If the Procuring Entity fails to do so within such period, the Contractor may, by a further notice to the Project Manager, elect to treat the suspension, where it affects apart only of the Facilities, as a deletion of such part in accordance with GCC Clause 39 or, where it affects the whole of the Facilities, as termination of the Framework Agreement under GCC Sub-Clause.
- 41.3. If:
- a) Procuring Entity has failed to pay the Contractor any sum due under the Framework Agreement within the specified period, has failed to approve any invoice or supporting documents without just cause pursuant to the Appendix to the Framework Agreement titled Terms and Procedures of Payment, or commits a substantial breach of the Framework Agreement, the Contractor may give a notice to the Procuring Entity that requires payment of such sum, with interest there on as stipulated in GCC Sub-Clause 12.3, requires approval of such invoice or supporting documents, or specifies the breach and requires the Procuring Entity to remedy the same, as the case may be.  - b) The Contractor is unable to carry out any of its obligations under the Framework Agreement for any reason attributable to the Procuring Entity, including but not limited to the Procuring Entity's failure to provide possession of or access to the Site or other areas in accordance with GCC Sub-Clause 10.2, or failure to obtain any governmental permit necessary for the execution and/or completion of the Facilities, then the Contractor may by fourteen (14) days' notice to the Procuring Entity suspend performance of all or any of its obligations under the Framework Agreement, or reduce the rate of progress.
- 41.4. If the Contractor's performance of its obligations is suspended or the rate of progress is reduced pursuant to this GCC Clause 41, then the Time for Completion shall be extended in accordance with GCC Sub-Clause 40.1, and any and all additional costs or expenses incurred by the Contractor as a result of such suspension or reduction shall be paid by the Procuring Entity to the Contractor in addition to the Framework Agreement Price, except in the case of suspension order or reduction in the rate of progress by reason of the Contractor's default or breach of the Framework Agreement.

The notice shall be given as soon as practicable, and not later than 28 days after the Contractor became aware, or should have become aware, of the event or circumstance.
- 45.2. If the Contractor fails to give notice of a claim within such period of 28 days, the Time for Completion shall not be extended, the Contractor shall not be entitled to additional payment, and the Procuring Entity shall be discharged from all liability in connection with the claim. Otherwise, the following provisions of this Sub-Clause shall apply.
- a) The Contractor shall also submit any other notices which are required by the Framework Agreement, and supporting particulars for the claim, all as relevant to such event or circumstance.
 - b) The Contractor shall keep such contemporary records as may be necessary to substantiate any claim, either on the Site or at another location acceptable to the Project Manager. Without admitting the Procuring Entity's liability, the Project Manager may, after receiving any notice under this Sub-Clause, monitor the record-keeping and/or instruct the Contractor to keep further contemporary records. The Contractor shall permit the Project Manager to inspect all these records and shall (if instructed) submit copies to the Project Manager.
- 45.3. If the event or circumstance giving rise to the claim has a continuing effect:

He may also request any necessary further particulars but shall nevertheless give his response on the principles of the claim within such time.
- 45.5. Each Payment Certificate shall include such amounts for any claim as have been reasonably substantiated as due under the relevant provision of the Framework Agreement. Unless and until the particulars supplied are sufficient to substantiate the whole of the claim, the Contractor shall only be entitled to payment for such part of the claim as he has been able to substantiate.

- 45.7. The requirements of this Sub-Clause are in addition to those of any other Sub-Clause which may apply to a claim. If the Contractor fails to comply with this or another Sub-Clause in relation to any claim, any extension of time and/or additional payment shall take account of the extent (if any) to which the failure has prevented or prejudiced proper investigation of the claim, unless the claim is excluded under the second paragraph of this Sub-Clause.
- 45.8. In the event that the Contractor and the Procuring Entity cannot agree on any matter relating to a claim, either Party may refer the matter to the Dispute Board pursuant to GCC 46 hereof.

PAYMENT PROCEDURES

The procedures to be followed in applying for certification and making payments shall be as follows:

APPENDIX 2. PRICE ADJUSTMENT

Where the Framework Agreement Period (excluding the Defects Liability Period) exceeds eighteen (18) months, it is normal procedure that prices payable to the Contractor shall be subject to adjustment during the performance of the Framework Agreement to reflect changes occurring in the cost of labor and material components. In such cases the Tendering document shall include in this Appendix 2 a formula of the following general type, pursuant to GCC Sub-Clause 11.2.

Where Framework Agreements are of a shorter duration than eighteen (18) months or in cases where there is to be no Price Adjustment, the following provision shall not be included. Instead, it shall be indicated under this Appendix 2 that the prices are to remain firm and fixed for the duration of the Framework Agreement.

Sample Price Adjustment Formula

If in accordance with GCC 11.2, prices shall be adjustable, the following method shall be used to calculate the price adjustment.

Prices payable to the Contractor, in accordance with the Framework Agreement, shall be subject to adjustment during performance of the Framework Agreement to reflect changes in the cost of labor and material components, in accordance with the following formula:

$$P_1 = P_0 \times \left(a + b \frac{L_1}{L_0} + c \frac{M_1}{M_0} \right) - P_0$$

P_1 = adjustment amount payable to the Contractor

P_0 = Framework Agreement price (base price)

a = percentage of fixed element in Framework Agreement price ($a = \%$)

b = percentage of labor component in Framework Agreement price ($b = \%$)

c = percentage of material and equipment component in Framework Agreement price ($c = \%$)

L_0, L_1 = labor indices applicable to the appropriate industry in the country of origin on the base date and the date for adjustment, respectively

M_0, M_1 = material and equipment indices in the country of origin on the base date and the date for adjustment, respectively

NB: $a + b + c = 100\%$

Conditions Applicable to Price Adjustment

The Tenderer shall indicate the source of labor, source of exchange rate and materials indices and the base date indices in its Tender.

Item	Source of Indices Used	Base Date Indices

The base date shall be the date thirty (30) days prior to the Tender closing date.

The date of adjustment shall be the mid-point of the period of manufacture or installation of component or Plant. The following conditions shall apply:

- d) No price increase will be allowed beyond the original delivery date unless covered by an extension of time awarded by the Procuring Entity under the terms of the Framework Agreement. No price increase will be allowed for periods of delay for which the Contractor is responsible. The Procuring Entity will, however, be entitled to any price decrease occurring during such periods of delay.
- e) If the currency in which the Framework Agreement price, P_0 , is expressed is different from the currency of the country of origin of the labor and/or materials indices, a correction factor will be applied to avoid incorrect adjustments of the Framework Agreement price. The correction factor shall be:

$$\frac{Z_0}{Z_1}, \text{ where,}$$

Z_0 = the number of units of currency of the origin of the indices which equal to one unit of the currency of the Framework Agreement Price P_0 on the Base date, and

Z_1 = the number of units of currency of the origin of the indices which equal to one unit of the currency of the Framework Agreement Price P_0 on the Date of Adjustment.

- f) No price adjustment shall be payable on the portion of the Framework Agreement price paid to the Contractor as an advance payment.
