2. Introduction

- 2.1 The Client named in the **Data Sheet** intends to select a Consultant from those listed in the Request for Proposals (RFP), in accordance with the method of selection specified in the **Data Sheet**.
- 2.2 The shortlisted Consultants are invited to submit a Technical Proposal and a Financial Proposal, or a Technical Proposal only, as specified in the **Data Sheet**, for consulting services required for the assignment named in the **Data Sheet**. The Proposal will be the basis for negotiating and ultimately signing the Contract with the selected Consultant.
- 2.3 The Consultants should familiarize themselves with the local conditions and take them into account in preparing their Proposals, including attending a pre-proposal conference if one is specified in the **Data Sheet**. Attending any such pre-proposal conference is optional and is at the Consultants' expense.
- 2.4 The Client will timely provide, at no cost to the Consultants, the inputs, relevant project data, and reports required for the preparation of the Consultant's Proposal as specified in the **Data Sheet**.

3. Conflict of Interest

- 3.1 The Consultant is required to provide professional, objective, and impartial advice, at all times holding the Client's interests paramount, strictly avoiding conflicts with other assignments or its own corporate interests, and acting without any consideration for future work.
- 3.2 The Consultant has an obligation to disclose to the Client any situation of actual or potential conflict that impacts its capacity to serve the best interest of its Client. Failure to disclose such situations may lead to the disqualification of the Consultant or the termination of its Contract and/or sanctions by the Bank.
 - 3.2.1 Without limitation on the generality of the foregoing, the Consultant shall not be hired under the circumstances set forth below:

a. Conflicting Activities

- (i) Conflict between consulting activities and procurement of goods, works or non-consulting services: a firm that has been engaged by the Client to provide goods, works, or non-consulting services for a project, or any of its Affiliates, shall be disqualified from providing consulting services resulting from or directly related to those goods, works, or non-consulting services. Conversely, a firm hired to provide consulting services for the preparation or implementation of a project, or any of its Affiliates, shall be disqualified from subsequently providing goods or works or non-consulting services resulting from or directly related to the consulting services for such preparation or implementation.

b. Conflicting Assignments

- (ii) Conflict among consulting assignments: a Consultant (including its Experts and Sub-consultants) or any of its Affiliates shall not be hired for any assignment that, by its nature, may be in conflict with another assignment of the Consultant for the same or for another Client.

c. Conflicting Relationships

- (iii) Relationship with the Client's staff: a Consultant (including its Experts and Sub-consultants) that has a close business or family relationship with a professional staff of the Borrower (or of the Client, or of implementing agency, or of a recipient of a part of the Bank's financing) who are directly or indirectly involved in any part of (i) the preparation of the Terms of Reference for the assignment, (ii) the selection process for the Contract, or (iii) the supervision of the Contract, may not be awarded a Contract, unless the conflict stemming from this relationship has been resolved in a manner acceptable to the Bank throughout the selection process and the execution of the Contract.

4. Unfair Competitive Advantage

- 4.1 Fairness and transparency in the selection process require that the Consultants or their Affiliates competing for a specific assignment do not derive a competitive advantage from having provided consulting services related to the assignment in question. To that end, the Client shall indicate in the **Data Sheet** and make available to all shortlisted Consultants together with this RFP all information that would in that respect give such Consultant any unfair competitive advantage over competing Consultants.

5. Fraud and Corruption

- 5.1 The Bank requires compliance with the Bank's Anti-Corruption Guidelines and its prevailing sanctions policies and procedures as set forth in the WBG's Sanctions Framework, as set forth in Section 6.
- 5.2 In further pursuance of this policy, Consultants shall permit and shall cause their agents (where declared or not), sub-contractors, subconsultants, service providers, suppliers, and personnel, to permit the Bank to inspect all accounts, records and other documents relating to any shortlisting process, Proposal submission, and contract performance (in the case of award), and to have them audited by auditors appointed by the Bank.

6. Eligibility

- 6.1 The Bank permits consultants (individuals and firms, including Joint Ventures and their individual members) from all countries to offer consulting services for Bank-financed projects.
- 6.2 Furthermore, it is the Consultant's responsibility to ensure that its Experts, joint venture members, Sub-consultants, agents (declared or not), sub-contractors, service providers, suppliers and/or their employees meet the eligibility requirements as established by the Bank in the applicable Procurement Regulations.
- 6.3 As an exception to the foregoing ITC 6.1 and ITC 6.2 above:

a. Sanctions

- 6.3.1 A Consultant that has been sanctioned by the Bank, pursuant to the Bank's Anti-Corruption Guidelines and in accordance with its prevailing sanctions policies and procedures as set forth in the WBG's Sanctions Framework as described in Section VI, Fraud and Corruption, paragraph 2.2 d., shall be ineligible to be shortlisted for, submit proposals for, or be awarded a Bank-financed contract or benefit from a Bank-financed contract, financially or otherwise, during such period of time as the Bank shall have determined. The list of debarred firms and individuals is available at the electronic address specified **in the PDS**.

b. Prohibitions

- 6.3.2 Firms and individuals of a country or goods manufactured in a country may be ineligible if so indicated in Section 5 (Eligible Countries) and:
- (a) as a matter of law or official regulations, the Borrower's country prohibits commercial

relations with that country, provided that the Bank is satisfied that such exclusion does not preclude effective competition for the provision of Services required; or

- (b) by an act of compliance with a decision of the United Nations Security Council taken under Chapter VII of the Charter of the United Nations, the Borrower's Country prohibits any import of goods from that country or any payments to any country, person, or entity in that country.

c. Restrictions for State-Owned Enterprises

6.3.3 State-owned enterprises or institutions in the Borrower's country may be eligible to compete and be awarded a contract only if they can establish, in a manner acceptable to the Bank, that they: (i) are legally and financially autonomous, (ii) operate under commercial law, and (iii) are not under supervision of the Client.

d. Restrictions for Public Employees

6.3.4 Government officials and civil servants of the Borrower's country are not eligible to be included as Experts, individuals, or members of a team of Experts in the Consultant's Proposal unless:

- (i) the services of the government official or civil servant are of a unique and exceptional nature, or their participation is critical to project implementation; and
- (ii) their hiring would not create a conflict of interest, including any conflict with employment or other laws, regulations, or policies of the Borrower.

e. Borrower Debarment

6.3.5 A firm that is under a sanction of debarment by the Borrower from being awarded a contract is eligible to participate in this procurement, unless the Bank, at the Borrower's request, is satisfied that the debarment; (a) relates to fraud or corruption, and (b) followed a judicial or administrative proceeding that afforded the firm adequate due process.

B. Preparation of Proposals

7. General Considerations

7.1 In preparing the Proposal, the Consultant is expected to examine the RFP in detail. Material deficiencies in

providing the information requested in the RFP may result in rejection of the Proposal.

8. Cost of Preparation of Proposal

8.1 The Consultant shall bear all costs associated with the preparation and submission of its Proposal, and the Client shall not be responsible or liable for those costs, regardless of the conduct or outcome of the selection process. The Client is not bound to accept any proposal, and reserves the right to annul the selection process at any time prior to Contract award, without thereby incurring any liability to the Consultant.

9. Language

9.1 The Proposal, as well as all correspondence and documents relating to the Proposal exchanged between the Consultant and the Client, shall be written in the language(s) specified in the **Data Sheet**.

10. Documents Comprising the Proposal

10.1 The Proposal shall comprise the documents and forms listed in the **Data Sheet**.

10.2 If specified in the **Data Sheet**, the Consultant shall include a statement of an undertaking of the Consultant to observe, in competing for and executing a contract, the Client country's laws against fraud and corruption (including bribery).

10.3 The Consultant shall furnish information on commissions, gratuities, and fees, if any, paid or to be paid to agents or any other party relating to this Proposal and, if awarded, Contract execution, as requested in the Financial Proposal submission form (Section 4).

11. Only One Proposal

11.1 The Consultant (including the individual members of any Joint Venture) shall submit only one Proposal, either in its own name or as part of a Joint Venture in another Proposal. If a Consultant, including any Joint Venture member, submits or participates in more than one proposal, all such proposals shall be disqualified and rejected. This does not, however, preclude a Sub-consultant, or the Consultant's staff from participating as Key Experts and Non-Key Experts in more than one Proposal when circumstances justify and if stated in the **Data Sheet**.

12. Proposal Validity

12.1 Proposals shall remain valid until the date specified in the **Data Sheet** or any extended date if amended by the Client in accordance with ITC 13.1.1.

12.2 During this period, the Consultant shall maintain its original Proposal without any change, including the

availability of the Key Experts, the proposed rates and the total price.

12.3 If it is established that any Key Expert nominated in the Consultant's Proposal was not available at the time of Proposal submission or was included in the Proposal without his/her confirmation, such Proposal shall be disqualified and rejected for further evaluation, and may be subject to sanctions in accordance with ITC 5.

a. Extension of Proposal Validity

12.4 The Client will make its best effort to complete the negotiations and award the contract prior to the date of expiry of the Proposal validity. However, should the need arise, the Client may request, in writing, all Consultants who submitted Proposals prior to the submission deadline to extend the Proposals' validity.

12.5 If the Consultant agrees to extend the validity of its Proposal, it shall be done without any change in the original Proposal and with the confirmation of the availability of the Key Experts, except as provided in ITC 12.7.

12.6 The Consultant has the right to refuse to extend the validity of its Proposal in which case such Proposal will not be further evaluated.

b. Substitution of Key Experts at Validity Extension

12.7 If any of the Key Experts become unavailable for the extended validity period, the Consultant shall seek to substitute another Key Expert. The Consultant shall provide a written adequate justification and evidence satisfactory to the Client together with the substitution request. In such case, a substitute Key Expert shall have equal or better qualifications and experience than those of the originally proposed Key Expert. The technical evaluation score, however, will remain to be based on the evaluation of the CV of the original Key Expert.

12.8 If the Consultant fails to provide a substitute Key Expert with equal or better qualifications, or if the provided reasons for the replacement or justification are unacceptable to the Client, such Proposal will be rejected.

c. Sub-Contracting

12.9 The Consultant shall not subcontract the whole of the Services.

13. Clarification and Amendment of RFP

13.1 The Consultant may request a clarification of any part of the RFP during the period indicated in the **Data Sheet** before the Proposals' submission deadline. Any request for

clarification must be sent in writing, or by standard electronic means, to the Client's address indicated in the **Data Sheet**. The Client will respond in writing, or by standard electronic means, and will send written copies of the response (including an explanation of the query but without identifying its source) to all shortlisted Consultants. Should the Client deem it necessary to amend the RFP as a result of a clarification, it shall do so following the procedure described below:

13.1.1 At any time before the proposal submission deadline, the Client may amend the RFP by issuing an amendment in writing or by standard electronic means. The amendment shall be sent to all shortlisted Consultants and will be binding on them. The shortlisted Consultants shall acknowledge receipt of all amendments in writing.

13.1.2 If the amendment is substantial, the Client may extend the proposal submission deadline to give the shortlisted Consultants reasonable time to take an amendment into account in their Proposals.

13.2 The Consultant may submit a modified Proposal or a modification to any part of it at any time prior to the proposal submission deadline. No modifications to the Technical or Financial Proposal shall be accepted after the deadline.

14. Preparation of Proposals Specific Considerations

14.1 While preparing the Proposal, the Consultant must give particular attention to the following:

14.1.1 If a shortlisted Consultant considers that it may enhance its expertise for the assignment by associating with other consultants in the form of a Joint Venture or as Sub-consultants, it may do so with either (a) non-shortlisted Consultant(s), or (b) shortlisted Consultants if permitted in the **Data Sheet**. In all such cases a shortlisted Consultant must obtain the written approval of the Client prior to the submission of the Proposal. When associating with non-shortlisted firms in the form of a joint venture or a sub-consultancy, the shortlisted Consultant shall be a lead member. If shortlisted Consultants associate with each other, any of them can be a lead member.

14.1.2 The Client may indicate in the **Data Sheet** the estimated Key Experts' time input (expressed in person-month) or the Client's estimated total cost of the assignment, but not both. This estimate is indicative and the Proposal shall be based on the Consultant's own estimates for the same.

14.1.3 If stated in the **Data Sheet**, the Consultant shall include in its Proposal at least the same time input (in the same unit as indicated in the **Data Sheet**) of Key Experts, failing which the Financial Proposal will be adjusted for the purpose of comparison of proposals and decision for award in accordance with the procedure in the **Data Sheet**.

14.1.4 For assignments under the Fixed-Budget selection method, the estimated Key Experts' time input is not disclosed. Total available budget, with an indication whether it is inclusive or exclusive of taxes, is given in the **Data Sheet**, and the Financial Proposal shall not exceed this budget.

15. Technical Proposal Format and Content

15.1 The Technical Proposal shall be prepared using the Standard Forms provided in Section 3 of the RFP and shall comprise the documents listed in the **Data Sheet**. The Technical Proposal shall not include any financial information. A Technical Proposal containing material financial information shall be declared non-responsive.

15.1.1 Consultant shall not propose alternative Key Experts. Only one CV shall be submitted for each Key Expert position. Failure to comply with this requirement will make the Proposal non-responsive.

15.2 Depending on the nature of the assignment, the Consultant is required to submit a Full Technical Proposal (FTP), or a Simplified Technical Proposal (STP) as indicated in the **Data Sheet** and using the Standard Forms provided in Section 3 of the RFP.

16. Financial Proposal

and the total amount, or (ii) between the amount derived by multiplication of unit price with quantity and the total price, or (iii) between words and figures, the former will prevail. - | | |
|--|---|
| <p>b. Lump-Sum Contracts</p> | <p>24.1.2 If a Lump-Sum contract form is included in the RFP, the Consultant is deemed to have included all prices in the Financial Proposal, so neither arithmetical corrections nor price adjustments shall be made. The total price, net of taxes understood as per ITC 25, specified in the Financial Proposal (Form FIN-1) shall be considered as the offered price. Where there is a discrepancy between the amount in words and the amount figures, the amount in words shall prevail.</p> |
| <p>25. Taxes</p> | <p>25.1 The Client's evaluation of the Consultant's Financial Proposal shall exclude taxes and duties in the Client's country in accordance with the instructions in the Data Sheet.</p> |

| <p>a. Quality and Cost-Based Selection (QCBS)</p> | <p>27.1 In the case of QCBS, the total score is calculated by weighting the technical and financial scores and adding them as per the formula and instructions in the Data Sheet. The Consultant with the Most Advantageous Proposal, which is the Proposal that achieves the highest combined technical and financial scores, will be invited for negotiations.</p> |
| <p>b. Fixed-Budget Selection (FBS)</p> | <p>27.2 In the case of FBS, those Proposals that exceed the budget indicated in ITC 14.1.4 of the Data Sheet shall be rejected.</p> |

- 28.4 Notwithstanding the above, the substitution of Key Experts at the negotiations may be considered if due solely to circumstances outside the reasonable control of and not foreseeable by the Consultant, including but not limited to death or medical incapacity. In such case, the Consultant shall offer a substitute Key Expert within the period of time specified in the letter of invitation to negotiate the Contract, who shall have equivalent or better qualifications and experience than the original candidate.
- b. Technical Negotiations**
- 28.5 The negotiations include discussions of the Terms of Reference (TORs), the proposed methodology, the Client's inputs, the special conditions of the Contract, and finalizing

the “Description of Services” part of the Contract. These discussions shall not substantially alter the original scope of services under the TOR or the terms of the contract, lest the quality of the final product, its price, or the relevance of the initial evaluation be affected.

c. Financial Negotiations

28.6 The negotiations include the clarification of the Consultant’s tax liability in the Client’s country and how it should be reflected in the Contract.

28.7 If the selection method included cost as a factor in the evaluation, the total price stated in the Financial Proposal for a Lump-Sum contract shall not be negotiated.

28.8 In the case of a Time-Based contract, unit rates negotiations shall not take place, except when the offered Key Experts and Non-Key Experts’ remuneration rates are much higher than the typically charged rates by consultants in similar contracts. In such case, the Client may ask for clarifications and, if the fees are very high, ask to change the rates after consultation with the Bank. The Client will then invite the next-ranked Consultant to negotiate a Contract. Once the Client commences negotiations with the next-ranked Consultant, the Client shall not reopen the earlier negotiations.

The Client shall provide a debriefing to all unsuccessful Consultants whose request is received within this deadline.

33.2 Where a request for debriefing is received within the deadline, the Client shall provide a debriefing within five (5) Business Days, unless the Client decides, for justifiable reasons, to provide the debriefing outside this timeframe. In that case, the standstill period shall automatically be

extended until five (5) Business Days after such debriefing is provided. If more than one debriefing is so delayed, the standstill period shall not end earlier than five (5) Business Days after the last debriefing takes place. The Client shall promptly inform, by the quickest means available, all Consultants of the extended standstill period

34. Signing of Contract

34.1 The Contract shall be signed prior to the expiry date of the Proposal validity and promptly after expiry of the Standstill Period, specified in ITC 30.1 or any extension thereof, and upon satisfactorily addressing any complaint that has been filed within the Standstill Period.

1. BACKGROUND

- 1.1 Kenya's strategic geographic position offers significant potential to become a leading transport hub in the region. The country hosts the Port of Mombasa—the busiest port in Eastern Africa—connected to the hinterland via an extensive railway network, oil pipeline, road corridors, and several international airports. These transport networks facilitate connectivity between key productive centers nationwide. As Kenya and its neighboring countries experience robust economic growth and rapid urbanization, the demand for efficient transportation infrastructure has become increasingly critical.
- 1.2 Kenya's Vision 2030 envisions a nation interconnected through a comprehensive network of roads, railways, ports, airports, water and sanitation facilities, and telecommunications. The goal is that “by 2030, it will become impossible to refer to any region of the country as remote.” Complementing this vision, the Integrated National Transport Policy (INTP) aims to establish a unified, efficient, and sustainable transport system to drive national development and economic growth. The policy covers road, rail, air, maritime, and pipeline transport, seeking to enhance connectivity between production centers, markets, and population hubs, facilitating social access to services, and promoting regional integration. Key policy elements include the integration of land use and transport planning, service quality improvement, consumer protection, and leveraging ICT for development.
- 1.3 Road transportation is the most dominant mode of transport in Kenya handling 90 percent of movement of freight and passengers in the country. The country's road network comprises approximately 239,121 km, with 44,630 km managed by the National Government and 120,337 km by County Governments. There is a substantial portion of 74,155 km that remains unclassified, yet these roads are crucial for last mile connectivity. National trunk roads fall under the jurisdiction of four institutions: Kenya National Highways Authority (KeNHA) which manages the national highways (22,320 km), Kenya Urban Roads Authority (KURA), urban roads (3,932 km), Kenya Rural Roads Authority (KeRRA), secondary roads (18,377 km), and Kenya Wildlife Services (KWS), which manages roads within national parks and game reserves. These agencies are responsible for the planning, development, and maintenance of roads for motorized, intermediate, and non-motorized transport.
- 1.4 Regionally, Kenya is traversed by four principal roads forming the East African Community (EAC) Regional Trunk Road Network (RTRN):
- The Northern Corridor (Mombasa–Nairobi–Malaba, with a branch to Kisumu)
 - The Great North Road Corridor (Namanga–Nairobi–Thika–Isiolo–Moyale)
 - The Northern Tanzania–Southern Sudan Corridor (Isebania–Kisumu–Kakamega–Kitale–Lodwar–Nandapal/Nakodok)

- Lunga Lunga (Tanzania)–Garissa (via Mombasa, Malindi, and Lamu) corridor.

The GoK has launched a new corridor for development to link the Port of Lamu to South Sudan and Ethiopia – Lamu Port South Sudan Ethiopia Transport Corridor (LAPSSET).

- 1.5 Despite ongoing efforts to improve logistics and multimodal linkages, transport planning remains fragmented, resulting in inadequate connectivity and inter-modality. Each mode of transport operates independently, limiting the system's ability to support socio-economic development and efficient access to essential services such as health, education, governance/administration, and security. Major road corridors, including the Northern Corridor and routes connecting Nairobi to Central and Eastern Kenya, are increasingly congested, impeding efficient movement. The Government recognizes the significant impact that inadequate infrastructure has on economic growth and poverty reduction. It has already begun to observe how infrastructure bottlenecks are hindering both foreign and domestic investment.
- 1.6 To address these challenges, the Government of Kenya seeks to develop an Expressway Network Master Plan to alleviate congestion, enhance connectivity, support economic growth, reduce poverty, and promote regional integration. The initiative aims to identify existing and new highways suitable for expressway status and integrate them into a comprehensive master plan, ensuring the development of a sustainable, efficient, and well-connected expressway network.
- 1.7 A qualified consultant will be engaged to screen existing highways, assess their suitability for expressway designation, identify new routes for expressway construction, and prepare a detailed master plan, a financing and implementation plan. The consultant will provide technical expertise, conduct feasibility studies, consult relevant stakeholders, consider environmental, social, and climate change impacts, and recommend financing and implementation strategies for expressway network development.

2. OBJECTIVES OF THE ASSIGNMENT

2.1 The main objective of this consultancy is to develop a comprehensive Expressway Network Master Plan for Kenya.

3. SCOPE OF SERVICES

- (ii) Screen existing highways to identify those suitable for designation as expressways based on technical, economic, and environmental criteria.
- (iii) Collect and analyze data on existing highways, traffic patterns, and overall transport demand and future needs to identify potential expressway corridors (along existing highways and new routes where justified).
- (iv) Evaluate highways using established criteria such as technical, financial, economic, social and environmental aspects and determine their suitability for expressway status.
- (v) Consult relevant stakeholders and local communities (including women, vulnerable groups, civil organization), environmental organizations, and government agencies.
- (vi) Recommend a long-term Expressway Network Master Plan that will serve not only the transport needs of Kenya but also integrate well with the regional networks to enhance transcontinental and international travel, trade, and provision of services.
- (vii) Conduct economic and environmental impact evaluation of the proposed Expressway Network and identify a subset of priority network to be implemented in a 5–10-year specific program.
- (viii) Recommend design standards for the Expressway Network and present (i) conceptual designs, (ii) technical specifications, (iii) materials, safety plans and procedures; and (iv) maintenance regime considering also the climate- and weather-related hazards, such as flash floods, and temperature increases.
- (ix) Review alternative sources of financing the implementation of the priority network and recommend the most viable way forward. More specifically, identify sections or specific corridors of the priority Expressway Network suitable for implementation as Public-Private-Partnership (PPP) projects.
- (x) Review the existing policy related to toll roads and recommend a viable tolling strategy.
- (xi) Develop a comprehensive financial model for the sections suitable for PPP based on forecasted project cash flows, clearly indicating the sources of data used and assumptions made, including, cost-benefit ratio, payback period and Project and Equity IRRs, and sensitivity analyses of key parameters and variables, such as a

shortfall in forecast traffic volumes, operating costs, delays in financial closing and project construction, etc.

- (xii) Conduct a workshop with relevant GoK parties to ensure all GoK parties understand the mechanics of the financial model(s).
- (xiii) Include clear and detailed assumptions worksheets which may be modified easily to allow for any further sensitivity analysis that may be required.
- (xiv) To the extent possible with available data, indicate the estimated financial return of individual expressways suitable for PPP and present the projected financial statements (Income & Expenditure, Cash Flow, and Balance Sheet) to establish their commercial viability and bankability.
- (xv) Propose strategies for integrating the expressway network with existing transport infrastructure, including roads, railways, and airports to ensure seamless connectivity.
- (xvi) Develop a strategic framework for phased development of the expressway network.
- (xvii) Review the existing capacity of KeNHA and the relevant legal and regulatory environment and recommend the appropriate institutional and policy framework required for the efficient implementation of the Expressway Development program, including the option of establishing an autonomous Expressway Authority in due time.
- (xviii) Ensure alignment of the master plan with Kenya's Vision 2030 and other regional and national development goals including county development plans.

- (xx) Coordinate with the consultant developing the 50-year transport master plan for Kenya.
- (xxi) Map out potential barriers to effective implementation of the masterplan and mitigation strategies
- (xxii) Submit a comprehensive final report detailing the findings, recommendations, and implementation plan for the expressway network.
- (xxiii) Conduct project lessons learned sessions prior to submission of the final report wherein results of the same shall be incorporated in said report
- (xxiv) Share all data analysis conducted to produce recommendations, including the data and calculations for any tables or figures and all assumptions made regarding values and calculations.
