KEMSA/PROC/OIT 01/2026-2027

Date: 13th October 2026

To all Bidders,

ADDENDUM NO. 2

Dear Sir/Madam,

**RE: TENDER NO. KEMSA/GOK CPF MAL/OIT 01/2026-2027 – SUPPLY OF
ANTIMALARIAL MEDICINES**

**An Interested bidder raised the following Query, and a response is provided
as detailed below.**

Question.

We are writing to kindly seek clarification regarding the tender requirements for products containing the same active pharmaceutical ingredient (API) but formulated with different diluent compositions. Although the active molecule remains identical, the distinction between a 1-diluent and a 2-diluent formulation constitutes technically distinct product characteristics.

In light of this, we would appreciate your guidance on the following:

1. Is a bidder permitted to submit offers for either or both product formulations under the same tender?
2. Should the two be split into two separate options/lots for each formulation type?

Answer.

Bidders are required to quote as follows;

1. Single Diluent Artesunate Formulation quantity 200,000
2. Double Diluent Artesunate Formulation quantity 100,000

Subsequently, the price schedule, list of goods, and delivery schedule have been revised as attached.

Yours faithfully,

Moses Sudi
Procurement Director
For: Chief Executive Officer

REVISED PRICE SCHEDULE											
#	1	2	3	4			5	6	7	8	9
No	Product Description	UOM	Quantity Unit Packs Offered	(a) Unit Price FOB port of Loading	(b) Inland transport, insurance and other local costs incidental to delivery	(c) Other incidental cost as defined in the SCC	Total Unit Pack price (4a+b+c)	Total Price (3 x5)	Manufacturer	Delivery Period	Delivery Period Offered by Bidder
